

Quest Offshore Resources' animation and multimedia vendor of choice

Do you have a concept or project that is near impossible to explain without confusing customers or not feasible to bring to a trade show?

Need to show how your product works but it's 10,000 feet under water or you can't get people to the location?

If a picture is worth a thousand words then animation is worth a million.

3D Animation is the clear choice to make your product or service easily understood. Whether from a laptop computer or displayed on a large screen at a trade show, animation is unsurpassed in its ability to captivate an audience. Our services have been proven to increase sales and we have been credited by our clients with well over a billion dollars in awarded projects.

Here are just some of our services:

- Virtual Prototype Rendering Animation
- Custom Concept & Design Renderings & Animations
- CAD Files Converted to Full 3D Renderings & Animations
- Design & Renderings From Simple Photographs & Sketches
- See Your Concepts & Designs In Real World Settings
- Technical Illustrations Converted To Marketing & Advertising Materials
- Marketing Materials & Advertising
- Training Materials & Imagery
- Brochures, catalogs, advertisements and any marketing collateral you need

Deep Down Design Studios is an award winning animation and multimedia firm that specializes in the oilfield and industrial sectors. With 20 years of experience we have become the most experienced industrial animation firm in the world and are pioneers in our field.
